Recycled Material Products for a Durable World

Rumber Materials Inc. has created a revolution in the way we think about every day products. Blending recycled tires and plastics in an exclusive patented process, Rumber® is strong and **highly durable** with unlimited potential uses. Rumber® is the **environmentally friendly** material, a natural choice for a number of specialized products. Our products are your **most cost-effective** option because they're easy to maintain and they last longer over time.

Rumber® Chock Block

Industries across the country are discovering the safety-enhancing, productivity-boosting, maintenance-

reducing benefits Rumber products provide. Rumber does not need costly sealants to ensure its wear and is not damaged by termites or insects.

The **Rumber Chock Block** is a case in point. Safety is it's number one advantage due to it's strength and durability.

And because of our patented extrusion manufacturing process, we can give you blocks in whatever lengths fit your needs.

Bottom line, it's your most **cost effective option** because it simply **lasts longer**.
