

Lowest Cost ~ Bottom Line!

100% Recycled Material Products

RUMBER OILFIELD USES

Rumber® Materials Inc. has a patent to produce products from 100% recycled tire rubber and plastics. This has created a revolution in the way we think about everyday products. Rumber is the **environmentally friendly** material, a natural choice for a number of specialized products. Bottom line, **Rumber products** are your **most cost-effective** option because they are easy to maintain and they last longer over time.

EXAMPLE OF RACKING BOARDS (TOP RIGHT), TRAILER FLOORING (ABOVE) AND PIPE STACKING (LEFT)

Rumber products are impervious to fluids, oil, and U.V. rays. They also repel gasoline, diesel, and other fuels, making them the perfect choice for oilfield uses.

With unprecedented durability and features that clearly out-perform traditional materials, using Rumber products results in **less down-time, fewer replacement costs and extended life.**

RUMBER OILFIELD USES
